Arranging airport pick-up and accommodation services (host family)

Comprehensive study abroad services and assessment

01

Professional education consultants provide students with up-to-date information on overseas universities and assessment of further studies; students would obtain tailored -made study plans.

Career aptitude assessment and guidance on personality strengths enhancement

02

Our Education Consultant will have advice for students, so as to improve their study and academic performance, explore their academic potential and provide enrichment programs for students who need to prepare for top universities admissions.

Recommendation on suitable extracurricular activities and work placements

03

Some overseas universities preferred students with excellent ability and have focus in making impact on the society and their peers. Universities also expected applicants who can demonstrate their personal skills with mature thinking, that would be the key personal attributes and qualities for students to equip with, in solving their future challenges.

School applications and international examinations

04

We help applicants process their school applications, test dates appointment (e.g. IELTS, SAT) and also help verify their result and certificates.

Enhancement in personal statement and interview training

05

Personal statement (PS) is an important way for students to present their ability & achievement to the school. PS act as a platform to express the student's personality, life experiences, values, and their world visions and their future potential; focus should be to impress the admissions committee.

We will have an in-depth understanding on the student's and to find out their strengths, their unique personality and experiences in order to help them have a personalized and relevant PS.

Interview likely to be the final step in the application stage. We will have a series of questions from our data bank to conduct mock interviews, that will help students succeed in their interviews. Questions will include topics that are unfamiliar to the student, and are critical and exploratory, so as to improve student's PS, precisely and concisely.

Airline ticketing services

06

Air ticket price inquiry and booking service will be provided.

Visa application services

07

Guidance will be given to students for their visa application.

Arranging airport pick-up and accommodation services (host family)

08
